EVENT LIGHTING

BEAM MOVING HEAD

High-output moving-head fixture designed for sharp aerial beams, dynamic movement and impactful event moments.

KEY FEATURES

- Fast pan and tilt movement
- Crisp beam effects through haze
- Ideal for stages, concerts and gala entrances

RECOMMENDED USE

Stage shows • Awards • Concerts • Corporate events

EVENT LIGHTING

LED WASH MOVING HEAD

Versatile color-wash fixture that delivers smooth, saturated coverage across stages, backdrops and architectural surfaces.

KEY FEATURES

- Wide color-mixing range
- Smooth dimming and movement
- Effective for scenic and audience lighting

RECOMMENDED USE

Conferences • Weddings • Exhibitions • Gala dinners

EVENT LIGHTING

LED PROFILE SPOTLIGHT

Precision spotlight for clean key light, logo areas, podiums and controlled stage illumination.

KEY FEATURES

- Defined beam shaping
- Professional front-light quality
- Accurate focus for speakers and performers

RECOMMENDED USE

Podiums • Presentations • Theatre • Ceremonies

EVENT LIGHTING

FRESNEL SPOTLIGHT

Soft-edged stage light that provides natural, flattering illumination for speakers, performers and camera coverage.

KEY FEATURES

- Smooth adjustable beam
- Warm and natural coverage
- Suitable for broadcast and photography

RECOMMENDED USE

Stages • Interviews • Graduations • Conferences

EVENT LIGHTING

LED PAR LIGHT

Compact multi-purpose fixture for uplighting, stage color, décor enhancement and perimeter illumination.

KEY FEATURES

- Rich RGB color effects
- Low-profile installation
- Flexible floor or truss mounting

RECOMMENDED USE

Décor • Stages • Tents • Brand activations

EVENT LIGHTING

AUDIENCE BLINDER

Powerful warm-white fixture used to create energetic audience hits, dramatic reveals and strong musical accents.

KEY FEATURES

- High-impact warm output
- Instant response for show cues
- Creates energetic audience engagement

RECOMMENDED USE

Concerts • Launches • Celebrations • Live bands

EVENT LIGHTING

LED BATTEN LIGHT

Linear color fixture for stage edges, scenic washing, wall accents and pixel-style programmed effects.

KEY FEATURES

- Even linear illumination
- Color-chase programming
- Compact scenic integration

RECOMMENDED USE

Stages • Backdrops • Exhibitions • Building accents

EVENT LIGHTING

CITY COLOR FLOODLIGHT

Wide-coverage architectural fixture for façades, outdoor venues, landscapes and national-color illumination.

KEY FEATURES

- Broad and powerful wash
- Outdoor event applications
- Ideal for large architectural surfaces

RECOMMENDED USE

Buildings • Outdoor events • National celebrations

EVENT LIGHTING

CITY COLOUR LIGHT – 2

High-output rectangular LED wash fixture designed to illuminate façades, stages and large event environments with saturated colour.

KEY FEATURES

- Multi-cell RGBW LED array
- Wide architectural wash coverage
- Adjustable heavy-duty floor yoke

RECOMMENDED USE

Building lighting • Stage washes • Exhibitions • Outdoor events

EVENT LIGHTING

DOUBLE CITY COLOUR LIGHT

Dual-fixture RGBW colour-wash system delivering broad, high-output illumination across large façades and outdoor event environments.

KEY FEATURES

- Two independently adjustable wash fixtures
- Expanded architectural lighting coverage
- Heavy-duty shared floor-mounting frame

RECOMMENDED USE

Building lighting • National events • Festivals • Venue exteriors

EVENT LIGHTING

SKY BEAM LIGHT

High-output outdoor searchlight producing a powerful directional beam to identify venues and enhance event visibility.

KEY FEATURES

- Strong long-distance beam effect
- Adjustable directional positioning
- Professional outdoor event deployment

RECOMMENDED USE

Venue landmarks • Openings • Festivals • Outdoor promotions

SPECIAL EFFECTS

FOG MACHINE

Professional fog machine producing atmospheric haze and fog effects that enhance lighting and stage presentation.

KEY FEATURES

- Controlled fog output
- Portable event-ready housing
- Compatible with professional show control

RECOMMENDED USE

Stages • Concerts • Entrances • Themed events

SPECIAL EFFECTS

COLD SPARK MACHINE

Event-effects unit producing a controlled vertical spark display for dramatic entrances, reveals and celebration moments.

KEY FEATURES

- Adjustable spark effect height
- Compact floor-standing design
- Synchronized multi-unit operation

RECOMMENDED USE

Weddings • Award moments • Product reveals • Stage shows

LASER SHOW EQUIPMENT

LASER SHOW PROJECTOR

Professional full-colour laser projector for synchronized aerial beams, programmed patterns and large-scale visual effects.

KEY FEATURES

- Full-colour RGB laser output
- Programmable beam and pattern control
- Supports synchronized multi-unit shows

RECOMMENDED USE

Concerts • Launches • Festivals • Large celebrations

PROFESSIONAL PROJECTION

CHRISTIE GRIFFYN 4K50-RGB

Premium large-venue pure-laser projector delivering high-brightness native-4K imagery for demanding event and projection-mapping applications.

KEY FEATURES

- 50,000 ISO lumens; native 4K resolution
- 3DLP imaging with RGB pure-laser illumination
- Built-in warping and multi-projector blending

RECOMMENDED USE

Projection mapping • Arenas • Concerts • Major events

PROFESSIONAL PROJECTION

PANASONIC PT-RQ50K

Flagship-class large-venue laser projector engineered for exceptionally bright native-4K visuals, immersive installations and outdoor mapping.

KEY FEATURES

- 50,000 lumens; native 4K resolution
- Three-chip DLP laser projection system
- Multi-screen support and geometric adjustment

RECOMMENDED USE

Projection mapping • Stadiums • Concerts • Exhibitions

PROFESSIONAL SOUND

ELECTRO-VOICE POWERED LOUDSPEAKER

PRIMARY BRAND • ELECTRO-VOICE

Professional powered loudspeaker solution selected for clear speech, balanced music reproduction and dependable event coverage.

KEY FEATURES

- Strong vocal clarity
- Flexible stand or floor placement
- Scalable for small and medium venues

RECOMMENDED USE

Meetings • Conferences • Weddings • Activations

PROFESSIONAL SOUND

ELECTRO-VOICE POWERED SUBWOOFER

PRIMARY BRAND • ELECTRO-VOICE

High-performance low-frequency reinforcement for impactful music playback, live entertainment and full-range event systems.

KEY FEATURES

- Deep, controlled bass response
- Pairs with powered top speakers
- Suitable for mobile event deployment

RECOMMENDED USE

Live bands • DJ events • Gala dinners • Weddings

PROFESSIONAL SOUND

RCF LINE-ARRAY LOUDSPEAKER

PRIMARY BRAND • RCF

Modular line-array system for consistent sound distribution, controlled coverage and professional large-event performance.

KEY FEATURES

- Scalable flown configuration
- Focused long-throw coverage
- Designed for high-capacity venues

RECOMMENDED USE

Graduations • Concerts • Arenas • Large conferences

PROFESSIONAL SOUND

RCF TOURING SUBWOOFER

PRIMARY BRAND • RCF

High-output touring subwoofer solution for powerful low frequencies and premium live-event sound reinforcement.

KEY FEATURES

- High-impact bass performance
- Pairs with line-array systems
- Professional touring-style deployment

RECOMMENDED USE

Concerts • Festivals • Arenas • Outdoor events

PROFESSIONAL SOUND

STAGE MONITOR

Low-profile monitor speaker positioned on stage to give performers and presenters clear, controlled foldback sound.

KEY FEATURES

- Focused on-stage monitoring
- Low-profile wedge design
- Supports bands, MCs and presenters

RECOMMENDED USE

Live bands • Performances • Conferences • Ceremonies

PROFESSIONAL SOUND

DIGITAL AUDIO MIXER

Central audio-control console for microphones, music playback, monitor mixes, processing and live-event sound management.

KEY FEATURES

- Multi-channel signal control
- Digital EQ and dynamics
- Operated by professional audio technicians

RECOMMENDED USE

Conferences • Concerts • Hybrid events • Broadcast

PROFESSIONAL SOUND

WIRELESS HANDHELD MICROPHONES

Professional wireless microphone systems for presenters, MCs, performers and audience interaction without cable restrictions.

KEY FEATURES

- Clear wireless speech capture
- Flexible multi-channel operation
- Ideal for mobile presenters and Q&A

RECOMMENDED USE

Speeches • Panels • Awards • Live entertainment

PROFESSIONAL SOUND

LAPEL & HEADSET MICROPHONES

Discreet hands-free microphone solutions for keynote speakers, trainers, performers and presentation-led events.

KEY FEATURES

- Hands-free presentation
- Compact bodypack transmitters
- Suitable for movement and demonstrations

RECOMMENDED USE

Keynotes • Training • Theatre • Product launches

LED DISPLAY SYSTEMS

P1.9 FINE-PITCH LED SCREEN

Ultra-fine-pitch indoor LED display for premium close-viewing environments where detail, text and image clarity are essential.

KEY FEATURES

- Best for close viewing distances
- High-detail corporate content
- Seamless modular display format

RECOMMENDED USE

Boardrooms • Premium exhibitions • Broadcast backdrops

LED DISPLAY SYSTEMS

P2.6 INDOOR LED SCREEN

High-resolution indoor LED solution for conferences, stages, graduations and branded event content.

KEY FEATURES

- Excellent balance of clarity and scale
- Suitable for medium viewing distances
- Flexible screen sizes and stage integration

RECOMMENDED USE

Conferences • Graduations • Gala dinners • Stages

LED DISPLAY SYSTEMS

P2.9 RENTAL LED SCREEN

Versatile rental LED display for corporate events, exhibitions and medium-to-large presentation environments.

KEY FEATURES

- Fast modular installation
- Strong image brightness and clarity
- Suitable for flat or creative screen layouts

RECOMMENDED USE

Exhibitions • Corporate events • Product launches

LED DISPLAY SYSTEMS

P3.9 INDOOR / OUTDOOR LED SCREEN

Robust LED display solution for larger viewing distances, outdoor events and high-impact stage applications.

KEY FEATURES

- Suitable for large-format screens
- High brightness for demanding environments
- Indoor and outdoor configurations available

RECOMMENDED USE

Outdoor events • Festivals • Building activations • Stages

LED DISPLAY SYSTEMS

RENTAL LED CABINET

Modular cabinet construction enables efficient transport, fast installation, flexible sizing and secure event deployment.

KEY FEATURES

- Quick-lock cabinet assembly
- Integrated power and data connections
- Supports flat, curved and custom layouts

RECOMMENDED USE

Temporary events • Exhibitions • Touring productions

LED DISPLAY SYSTEMS

LED VIDEO PROCESSOR

Professional processing and control system for content scaling, switching, signal distribution and reliable LED-screen operation.

KEY FEATURES

- Multi-source input management
- Content scaling and switching
- Technician-operated event control

RECOMMENDED USE

Conferences • Live events • Multi-screen productions

ALUMINIUM TRUSS

3M STRAIGHT SQUARE TRUSS

Long modular aluminium truss section for primary horizontal spans and large event structures.

KEY FEATURES

- Efficient coverage for wider spans
- Four-chord square construction
- Connects with compatible truss components

RECOMMENDED USE

Box truss • Stage roofs • LED support • Lighting grids

ALUMINIUM TRUSS

2M STRAIGHT SQUARE TRUSS

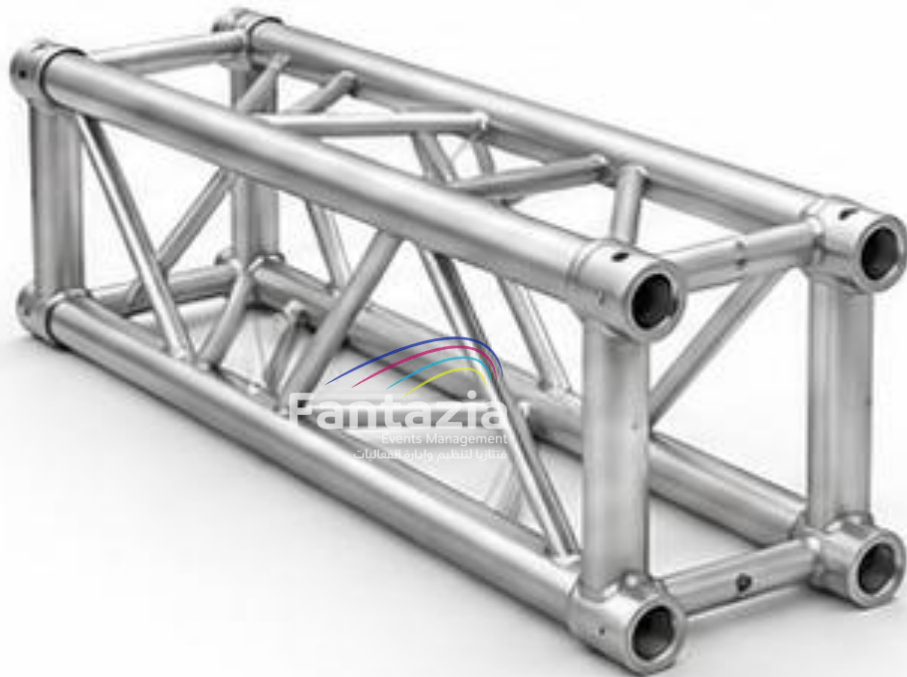

Versatile mid-length section for building adaptable stage, exhibition and lighting-support structures.

KEY FEATURES

- Flexible modular configuration
- Suitable for vertical or horizontal use
- Quick event-installation format

RECOMMENDED USE

Stages • Exhibitions • Goalposts • Lighting support

ALUMINIUM TRUSS

1M STRAIGHT SQUARE TRUSS

Compact truss section used to fine-tune structural dimensions and create shorter support elements.

KEY FEATURES

- Useful for dimensional adjustments
- Compact handling and transport
- Compatible modular connection

RECOMMENDED USE

Small spans • Towers • Booths • Custom structures

ALUMINIUM TRUSS

0.5M STRAIGHT SQUARE TRUSS

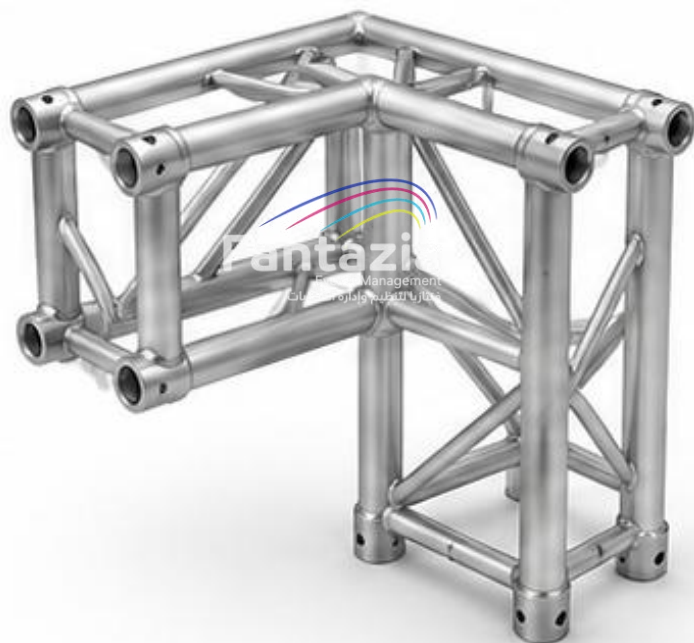

Short extension section for precise truss sizing, custom corners and space-restricted installations.

KEY FEATURES

- Fine length adjustment
- Compact structural extension
- Ideal for custom event layouts

RECOMMENDED USE

Booths • Short extensions • Scenic structures

TRUSS COMPONENTS

2-WAY 90° TRUSS CORNER

Right-angle corner component used to turn a truss run and form clean rectangular structures.

KEY FEATURES

- Creates a fixed 90-degree turn
- Maintains square-truss geometry
- Supports neat corner construction

RECOMMENDED USE

Goalposts • Frames • Box truss • Exhibition structures

TRUSS COMPONENTS

3-WAY T-JUNCTION

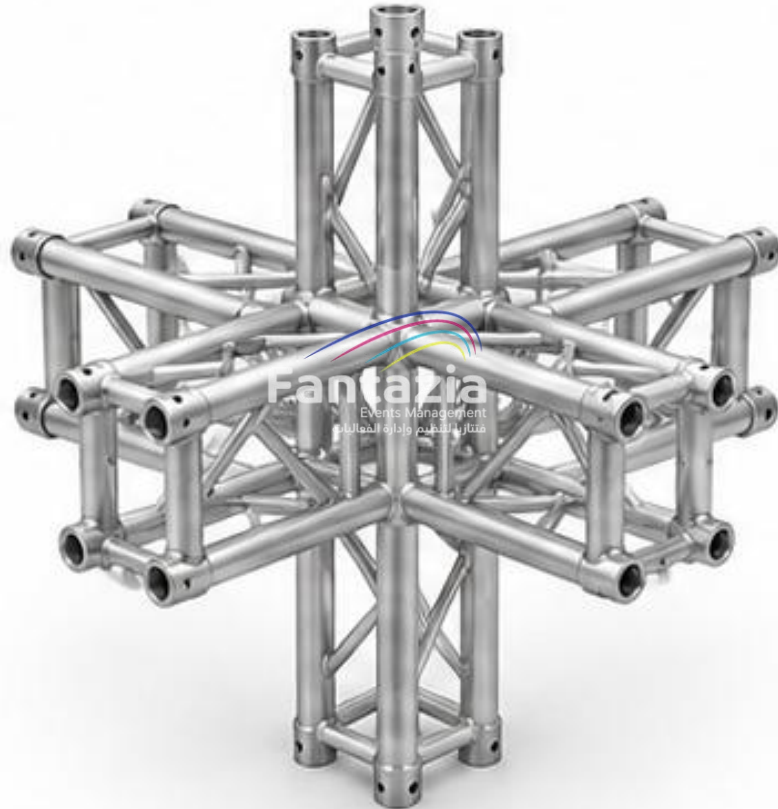

Three-direction junction for connecting intersecting truss runs in grids and multi-span structures.

KEY FEATURES

- Connects three structural directions
- Supports grid and branch layouts
- Modular event-production use

RECOMMENDED USE

Lighting grids • Multi-bay structures • Stage roofs

TRUSS COMPONENTS

4-WAY CROSS JUNCTION

Four-direction truss junction for central grid intersections and complex production layouts.

KEY FEATURES

- Connects four truss directions
- Useful for central grid nodes
- Supports expandable layouts

RECOMMENDED USE

Large grids • Exhibition halls • Production structures

TRUSS COMPONENTS

TRUSS BASE PLATE

Heavy-duty base plate used to create a stable interface between vertical truss towers and the floor.

KEY FEATURES

- Supports vertical truss placement
- Pre-drilled fixing positions
- Used with approved ballast or anchoring

RECOMMENDED USE

Truss towers • Goalposts • Entrance structures

TRUSS STRUCTURES

BOX TRUSS STRUCTURE

Four-sided freestanding truss grid with black tower covers for professional event and exhibition installations.

KEY FEATURES

- Four vertical support towers
- Full rectangular overhead grid
- Black stretch-fabric tower covers

RECOMMENDED USE

Lighting grids • Stage areas • Exhibitions • Event décor

TRUSS STRUCTURES

GOAL POST TRUSS

Freestanding goal-post structure with two covered towers and a horizontal truss beam for event equipment support.

KEY FEATURES

- Two-tower freestanding structure
- Silver horizontal truss beam
- Black stretch-fabric tower covers

RECOMMENDED USE

LED screens • Entrance branding • Lighting • Backdrops

TRUSS STRUCTURES

T-TRUSS STAND

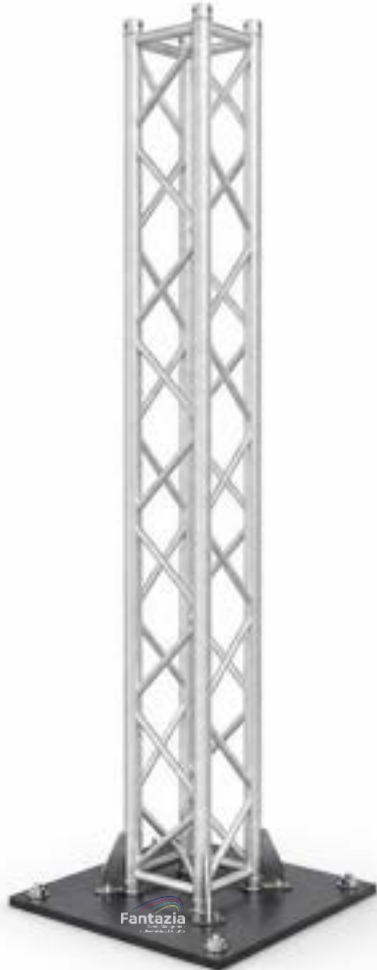

Compact T-shaped truss stand with a covered vertical tower and horizontal crossbar for flexible equipment positioning.

KEY FEATURES

- Space-efficient single tower
- Horizontal fixture crossbar
- Black stretch-fabric tower cover

RECOMMENDED USE

Lighting fixtures • Speakers • Small stages • Exhibitions

TRUSS STRUCTURES

30 × 30 CM TOWER TRUSS

Vertical 30 × 30 cm square aluminium truss tower for building modular support structures and equipment positions.

KEY FEATURES

- 30 × 30 cm square profile
- Four-chord aluminium construction
- Heavy-duty tower base plate

RECOMMENDED USE

Truss towers • Goalposts • Lighting support • Event structures

LIFTING EQUIPMENT

EURO LIFT

Professional telescopic crank-up lifting tower for safely raising compatible truss and production equipment.

KEY FEATURES

- Manual winch lifting system
- Telescopic mast with top adapter
- Stabilizing outriggers and wheeled base

RECOMMENDED USE

Truss lifting • Lighting bars • Setup support • Mobile productions

LIFTING EQUIPMENT

MANUAL CHAIN HOIST

Manual lifting device for controlled raising and positioning of approved event-production loads.

KEY FEATURES

- Hand-operated lifting control
- Compact and portable
- Used by trained rigging personnel

RECOMMENDED USE

Truss lifting • Positioning • Installation support

LIFTING EQUIPMENT

ELECTRIC CHAIN HOIST

Powered chain motor used for coordinated lifting of truss, lighting and production equipment.

KEY FEATURES

- Efficient powered lifting
- Chain bag for organized operation
- Suitable for multi-point systems

RECOMMENDED USE

Stage roofs • Lighting grids • Arena productions

LIFTING EQUIPMENT

CHAIN-HOIST CONTROLLER

Multi-channel controller for operating compatible electric chain hoists during installation and positioning.

KEY FEATURES

- Centralized motor control
- Multiple lifting channels
- Operated by qualified technicians

RECOMMENDED USE

Multi-motor lifts • Truss grids • Stage structures

RIGGING HARDWARE

TRUSS CLAMP / COUPLER

Professional clamp for securely attaching compatible fixtures and accessories to aluminium truss chords.

KEY FEATURES

- Fast mechanical attachment
- Protects organized fixture positioning
- Use only within approved rating

RECOMMENDED USE

Lighting fixtures • Accessories • Cable management

RIGGING HARDWARE

POLYESTER ROUND SLING

Soft lifting sling used to connect approved rigging points while helping protect truss surfaces.

KEY FEATURES

- Flexible load connection
- Surface-friendly textile construction
- Available in rated specifications

RECOMMENDED USE

Truss suspension • Hoist connections • Rigging points

RIGGING HARDWARE

STEEL WIRE-ROPE SLING

Durable steel sling for professional lifting and suspension connections in event-rigging systems.

KEY FEATURES

- Robust steel construction
- Eye-loop termination
- Selected to suit approved load plans

RECOMMENDED USE

Suspension • Secondary support • Structural rigging

RIGGING HARDWARE

BOW SHACKLE

Rated connector used between slings, hoists and rigging points in temporary event structures.

KEY FEATURES

- Secure removable pin
- Connects compatible rigging components
- Specification selected by load requirement

RECOMMENDED USE

Hoists • Slings • Pick points • Structural connections

SAFETY EQUIPMENT

SAFETY CABLE

Secondary retention cable for securing suspended event equipment to an approved support point.

KEY FEATURES

- Independent secondary retention
- Compact carabiner connection
- Essential for overhead fixture safety

RECOMMENDED USE

Lighting fixtures • AV equipment • Suspended accessories

STAGE EQUIPMENT

STAGE PLATFORM – 20 CM

Low-profile modular stage platform providing a clean, slightly raised presentation area for indoor and outdoor events.

KEY FEATURES

- 20 cm finished platform height
- Black carpeted deck and fascia
- Adjustable aluminium support feet

RECOMMENDED USE

Corporate events • Speakers • Ceremonies • Display platforms

STAGE EQUIPMENT

STAGE PLATFORM – 40 CM

Versatile mid-height modular platform suitable for presentations, entertainment and professional event installations.

KEY FEATURES

- 40 cm finished platform height
- Black carpeted deck and skirting
- Modular aluminium support frame

RECOMMENDED USE

Conferences • Award ceremonies • Bands • School events

STAGE EQUIPMENT

STAGE PLATFORM – 60 CM

Elevated modular stage platform with reinforced support framing for improved audience visibility and event presentation.

KEY FEATURES

- 60 cm finished platform height
- Cross-braced aluminium frame
- Compatible with steps and skirting

RECOMMENDED USE

Graduations • Performances • Product launches • Gala events

STAGE EQUIPMENT

STAGE PLATFORM – 80 CM

High-level modular event stage with robust bracing and dedicated stair access for larger venues and productions.

KEY FEATURES

- 80 cm finished platform height
- Reinforced cross-braced supports
- Detachable access stair system

RECOMMENDED USE

Ballrooms • Outdoor events • Concerts • Large ceremonies

STAGE EQUIPMENT

STAGE PLATFORM – 1 M

One-metre-high modular production stage engineered as a prominent performance and presentation platform for major events.

KEY FEATURES

- 1 m finished platform height
- Heavy-duty cross-braced frame
- Stair access with handrails

RECOMMENDED USE

Concerts • Festivals • Large graduations • Public events

EVENT TECHNOLOGY

DRONE SHOW

Choreographed fleet of LED-equipped drones creating synchronized aerial patterns and custom visual sequences for outdoor events.

KEY FEATURES

- Custom formations and animation
- Programmable colour choreography
- Specialist flight and control team

RECOMMENDED USE

National celebrations • Launches • Festivals • Outdoor events

EVENT STRUCTURES

UAE TRADITIONAL TENT

Traditional Emirati and Bedouin-inspired majlis tent creating an authentic hospitality setting for cultural and national events.

KEY FEATURES

- Traditional woven fabric design
- Carpeted majlis seating interior
- Modular event-rental installation

RECOMMENDED USE

UAE National Day • Heritage events • Ramadan • VIP hospitality

NATIONAL EVENT EQUIPMENT

LARGE UAE FLAG POLE

Freestanding large-format flag pole displaying the United Arab Emirates flag for national celebrations and prominent venue branding.

KEY FEATURES

- Tall polished metal flag pole
- Heavy-duty freestanding base
- Large UAE national flag

RECOMMENDED USE

UAE National Day • Government events • Entrances • Outdoor venues
